DUNLOP TIRES

**Grandtrek AT20™ Roadside Assistance**

In the event of a flat tire, you must call the number below and a qualified service professional will replace the tire for you with your inflated spare. For all other product or customer service inquiries, contact your dealer.

**1-800-999-9460      ACCT. #690020**

If you do not carry an inflated spare, and towing and/or other service is necessary, you will be solely responsible for any charges incurred. The service professional will ask to see this card.

## **GRANDTREK AT20™ THE CONFIDENCE OF 24-HOUR ROADSIDE ASSISTANCE**

Your Dunlop Grandtrek AT20 tires give you much more than the power of a luxury, all-weather SUV tire. They also give you the confidence that comes with Dunlop's 24-hour Roadside Assistance.

In addition to the consistent performance, traction and comfort you expect from Dunlop, the Grandtrek AT20 tires also deliver the added value of emergency Roadside Assistance for flat tire-related incidents. It's a service we hope you'll never need, but it's easy to use if you do. Here's how it works.

- Completely fill out this card before you leave your Dunlop tire dealership. Store this card and receipt in your vehicle with other important documents, where it will be immediately accessible in the event of an emergency.
- This Roadside Assistance service is in effect for twenty-four (24) months from the date of the original purchase. It is only good for the first owner of the Dunlop Grandtrek AT20 tires as long as they are properly fitted to the same original sport utility vehicle for which they were purchased.
- In the event of an on-road tire-related emergency, regardless of where you are in the United States or Canada, simply call the nationwide toll-free number: 1-800-999-9460. A qualified service professional will promptly be dispatched to your location to change your flat tire with your inflated spare at no charge.
- No payment for this tire changing service is required. That means there will not be any outlay of funds or forms to file for reimbursement later.
- Simply show your Roadside Assistance card when requested and sign as directed. The Dunlop Roadside Assistance representative will be happy to provide the covered service free of charge.
- If no serviceable spare tire is available, and your Dunlop Grandtrek AT20 tire needs replaced or your SUV needs towed, specific arrangements may be determined at the service site by the tire owner and the Roadside Assistance provider, subject to approval by a Dunlop-designated representative. The cost of such additional services is the responsibility of the Dunlop Grandtrek AT20 tire owner.

The consistent performance, traction, comfort and style that are the hallmark of the Dunlop Grandtrek AT20 tires are now made even better by complimentary Roadside Assistance. The extra confidence this service provides is exactly the kind of superior value you can only expect from Dunlop.
